[PGWARE SuperRam V6.1 With Patch](#)

The screenshot shows the SuperRam software interface. The title bar reads "SuperRam - Make your computer run faster". The interface includes a navigation menu with "Home", "Support", and "About" links, and a "Help" icon. A sidebar on the left lists tasks such as "View and change settings", "Perform speed test", and "View memory statistics". The main content area features a "Benefits of SuperRam" section, "Computer performance information" with a pie chart showing Free RAM (2700 MB) and Used RAM (1395 MB), and buttons for "Change options and settings", "Run memory benchmark test", and "View statistics and history report". At the bottom, it displays the version installed (6.11.25.2013), the last update date (Thursday, November 28, 2013), and a "Check for updates ..." button. A footer link says "Click here to register and activate the software".
